HUNS EVACUATING COAST OF BELGIUM

NEW GAINS OF ALLIES FORESHADOW GENERAL FALLING BACK OF HUNS

(Associated Press War Summary)

Crossing the Aisne at Berry-au-Bac the French have brought new peril to the entire German line in Laonnis and Champagne sectors in France. If the French are able to debouch from Berry-au-bac and obtain a bridgehead on the north side of the Aisne, German forces still clinging to the Chemin-des-dames will be compelled to fall back rapidly. General Berthelot's army has wrested from the enemy the hills northwest from Rheims, swiftly swept the enemy back to the Suippe river and reached the Aisne and crossed it at a vital point. In the Champagne sector General Gouraud's Franco-American troops are closely following the enemy in his retrograde movement toward the river Retourne. From Argonne to the Meuse the Americans have again struck at German positions before the Kriemhild line and a great battle seems impending there. English and American troops attacked this morning between St. Quentin and Cambrai and early advances tell of satisfactory progress.

Huns Quitting Belgian Coast.

Amsterdam, Oct. 8.—German evacuation of the Belgian coast region is continuing, the frontier correspondent of the Telegraph reports. Store of material at Knokke, near the coast five miles from the Dutch border, have been set on fire, according to report, and many of the factories have been undermined in preparation for quick destruction.

Americans and British Begin New Battle

London, Oct. 8.—British and American troops attacked this morning on the front between St. Quentin and Cambrai, Field Marshal Haig announced. Satisfactory progress is being made the Field Marshal states. Today's attack was launched just before daybreak in a heavy rain which began last night. In successful local operations near Mont Brehain and Beaufort on this front yesterday. Over 230 prisoners were taken by the Americans and English.

Important Gains by French.

Paris, Oct. 8.—North and northeast of Rheims the French continue their successful advance. The war office announcement today says French troops have reached the outskirts of Conde-sur-suippe, at the junction of the Suippe and Aisne, northeast of Berry-au-Bac. Along the Suippe river the French penetrated into Isles-sur-suippe and to the west captured Ozancourt.

WILSON'S REPLY READY TODAY

BELIEVED HE WILL DECLARE THAT HIS TERMS MUST BE ACCEPTED UNCONDITIONALLY.

(By the Associated Press)
Washington, Oct. 8.—President Wilson's reply to German and Austrian peace negotiations and armistice requests probably will be dispatched before night. If it not already on the cables, Secretary Lansing announced today that he, Secretary Lansing, would see newspaper correspondents at 4 o'clock this afternoon and probably would have something for them. The president spent the morning in his study and was believed to be putting into shape his final announcement. Nothing less than conditions already stated and reiterated by the president and allied premiers will be granted and these must be accepted unequivocally and not merely as a basis for negotiations, according to present indications.

THREE MORE DEATHS FROM PNEUMONIA

Robert Hale, aged 18, who died Sunday of pneumonia, was interred Monday afternoon at Rosedale cemetery. Rev. Bonnie Grimes conducted the funeral services. Deceased was the son of J. R. Hale and wife, 308 West 9th street, Ada.

O. A. Clark, Jr., the two-year-old son of O. A. Clark and wife, who live west of Ada, died of pneumonia. The burial was at Hampton cemetery Monday.

Mrs. Esther Brewster, wife of B. H. Brewster, who lives west of Ada, died Monday about noon of pneumonia. The body was laid to rest at Egypt cemetery.

NO PROSPECT OF ARMISTICE NOW

Washington, Oct. 8.—President Wilson is conferring with the premiers of the entente nations over the form of answer to be made to Germany's latest peace proposals. The indications are that it will not be dispatched for a day or two. While there may be some question as to the form of the reply there is no question as to its nature. It may not use the short and forceful term "unconditional surrender," which would reflect the sentiment which has come from the spokesmen of the nation, but it is sure to convey to the German government that nothing less than the terms already laid down can be accepted and that those terms can not be made merely "the basis for negotiations." As to the armistice, such a step would be looked upon as suicidal and not to be thought of.

ARMY OFFICER COMMITS SUICIDE

(By the Associated Press)
Camp Grant, Ill., Oct. 8.—Colonel C. B. Hagadorn, acting commander of the camp committed suicide in his quarters here last night. The body was found this morning with a pistol wound in the head. The strain imposed by the pneumonia epidemic here which caused the death of 500 men is attributed as one cause.

FORCE FOR TREATY BREAKERS.

"Force, force to the utmost, force without stint or limit," is the answer to the appeal for an armistice by the Central Powers, according to public opinion as reflected by the press of America, Britain and France. As long as the Germans claim they have fought a defensive war, as long as they claim their armies are victorious, as long as they are not willing to admit they have sinned and are ready to ask forgiveness, so long will "Force, Force to the utmost" be used to drive this unwillingness home. A convicted contract breaker must not be surprised to find mankind adverse to accepting his word at face value. Even if the thousands of deeds done by Germany were not enough to make us doubt the sincerity of the German leaders, the words of Herr S. Herzog, the eminent German commercial propagandist, would:

"The par value of treaties has reached nil and will not immediately recover from its slump—using this word in both a material and ethical sense. The most recent past teaches that he who would keep treaties does not need them; and he who chances them takes his chances." Sentimental considerations have no place in the hard world of business. Commercial treaties will come again like other international agreements, and will probably also be broken again."

WHY AMERICAN WAR BILL IS HIGHER

(By the Associated Press)
Washington, Oct. 8.—Why does it cost the United States so much more to make war than it costs any of its co-belligerents?

What is being done with the tens of billions being raised from Liberty Bonds and taxation. One often hears these questions.

The answer is not difficult. It is, simply, that it costs an American more to do anything than it costs anyone else in the world. That is the best reason why Americans should buy Liberty Bonds.

The American army is composed of workmen. The American workman demands a higher standard of everything than any other working man in the world. When he becomes a soldier he carries that standard with him, and, comparatively, gets it.

Napoleon said, and everybody ever since has repeated, that an army travels on its stomach. So naturally the substance of the American soldier comes first in the long bill which is rapidly running to \$50,000,000 a day.

The regular ration list of the American army calls for forty-nine different items of food. It includes many things which are luxuries to the soldiers of the foreign armies. At that, it only costs 32 cents a day to feed a soldier. The figure is low because the government has the advantage of dealing in billions and tons where the individual deals in dollars and pounds. Even so, the army has felt the increased cost of living because it cost only 12.81 cents a day to feed a soldier during the Spanish war.

Take into account the almost staggering sums the government has spent for food alone since the war began: \$37,000,000 worth of flour; \$14,000,000 worth of sugar; \$43,000,000 worth of bacon; \$12,000,000 worth of beans; \$9,000,000 worth of canned tomatoes; \$3,000,000 worth of rice. It sounds almost like a food bill for a nation.

Without any disparagement whatever of the rationing system of the co-belligerents it may be said that while the food of the British soldier compares favorably with that of his American cousin, the French ration is less acceptable to the American and that of the Italians would get a very cold reception.

The equipment of the American soldier is no less up to standard than his food. Since the beginning of the war the government has spent \$126,000,000 for shoes. Only recently a contract was let which is intended to keep every soldier with two pairs—one for marching and one for general wear. The price in quantity of millions was well over \$5 a pair. Old soldiers of the regular army can remember when the government issued "brogans" far removed in quality from the army shoe of today.

The American soldier's clothing so far has cost a round \$500,000,000. For his blankets the government has spent \$150,000,000. Every thing else is in proportion for in every particular of his equipment the government has supplied the soldier with the same relative high standard he was accustomed to at home in civil life. The extra cost of maintaining an army on foreign soil has entered into the huge bill because it has been found that it costs \$423.27 to equip and maintain a soldier a year abroad as against \$327.78 at home. Of this sum \$251.85 goes for food. The rationing expenses at home is \$189.80.

The high standard has been carried to the soldiers pay. For all practical purposes of estimate the American soldier is the highest paid fighting man in the world. He actually gets more than the average German officer. To the \$33 a month a private receives from the government is added a sum for his dependents, depending upon their condition and number. Canada and the other British colonies more nearly approximate the pay of the American soldier than any others of the co-belligerents.

Taking into consideration all these items it is not strange that America's war bill is greatest.

All you who have torpid liver, weak digestion or constipated bowels look out for chills. The season is here and the air is full of the disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy. It answers the purpose completely. Sold by Bart Smith.

Old and True Expression.

The origin of the expression: "If union there is strength," is not known but the sentiment in various forms has been current a very long time. A Latin author of ancient time said "By union the smallest states thrive by discord the greatest are destroyed." The American author of "The Flag of Our Union" said: "United we stand; divided we fall."

MEN AT FRONT WOULD NOT ACCEPT FURLOUGH

(By the Associated Press)
Paris, Oct. 8.—General Mangin's army was engaged in the most terrific battle of the war; for three days no progress could be made against the desperate resistance of the Prussian Guards and Bavarian shock troops.

In the vicinity of Coucy-le-Chateau and on the edges of the Saint Gobain forest the battle raged. German counter-attacks had driven back the attacking Franco-American army at various points.

A division of the American army after three weeks of stubborn fighting had just been relieved and rested in comparative safety behind the Ailette River. Two hundred of the American soldiers proudly exhibited passing entitling them to ten days leave in Paris and elsewhere to the rear.

At four in the morning the "alert" was sounded. A violent German counter attack had just been launched threatening the allied positions north of the Ailette. The division was to return to the firing line at once.

As they mustered out, heavy with sleep, the officers told the boys that those in possession of passes for the rear might remain behind. They could take advantage of the brief furlough.

Not one man remained behind.

BLOWN IN BY DRAFT

By JACK LAWTON.

(Copyright, 1918, Western Newspaper Union.)

Private Vance Donnette was a Southern lad by birth. As are many of our gallant young lads he was called into the service by the draft. He entered a Southern encampment in the latter part of March and in early May, with many others, was transferred to a camp farther North. It was the 12th of May that Vance was assigned the duty of a switchboard operator at the camp. His hours at the switchboard were 6 a. m. to 12 m., and 5 p. m. to 1 a. m.

One bright Tuesday morning, while on his duty at the switchboard, wondering how to spend the four-hour relief that afternoon, he at last decided to take a stroll through the village of Riverside. The village church, the store and the central office were the important buildings. One o'clock that Tuesday found Vance strolling the streets of a strange town. Several of the village lads were in the service, so a lad in khaki was not an uncommon occurrence. "I don't see many lassies in this vicinity. I guess they are few and far between," said Vance.

Arriving at the store he entered and bought a cigar, then gayly passed on his way. He had not gone far when he approached the central office. Glancing into the open windows, and slacking his pace as he did so, he saw the little operator at her post. "Number, please." "Line busy!" "Did you get him?" "Riverside," he heard the sweet little voice saying. "Who is the proud owner of that sweet voice?" "How beautiful she was with that dark hair. Wish that I might meet her," said Vance.

As he continued his stroll the operator was still in his mind. He walked on nearly a mile, then began his journey homeward. Taking a slip of paper from his pocket he wrote: "Vance Donnette, operator at local camp. Ring up." On his return by the central office he walked more slowly than before. Just at the entrance to the office he let the slip of paper drop out of his hand. "Hope that she is lucky enough to find it," said he.

At five o'clock Emila Dell, the Riverside operator, was preparing to leave the office. Just as she opened the door to depart a slip of paper was "blown in by the draft" (draught) and dropped at her feet. Picking it up she placed it in her ticket book and started on her way home.

Wednesday morning as Emila was recording her tickets she found the paper which she picked up the previous night. Unfolding it she read: "Vance Donnette. Operator at local camp. Ring up." "Where did it come from? Who is Vance Donnette? Guess I'll ring him up shortly." At eleven o'clock Emila rang up the local camp. "Is this Vance Donnette?" "Yes, was the reply. "This is Emila Dell, the Riverside operator. I found your paper in the office. It was 'blown in by the draft' (draught), so I rang you up." "Blown in by the draft" (draught), and you found it. I, too, was 'blown in by the draft.' Thank heaven that you found it." On Emila's inquiry in regard to the origin of the paper Vance related the tale of his stroll through Riverside. During their conversation Emila invited him to call at the office on the day of his next relief.

The next Tuesday afternoon Vance went to the Central office. As he neared the office, instead of slackening, he hastened his pace he was so anxious to meet Emila. Entering the office, Emila greeted him with a handshake, as though they had known each other for years. That afternoon as he sat there talking to her, the only thought in his mind was: "She is the most beautiful of all girls." He was obliged to leave the office at three o'clock, that he might not be late in reporting at the camp.

As usual at five o'clock, Vance was going on duty and Emila was coming off. "She's a wonder!" Dark hair, steel gray eyes, cheeks as pink as roses, and just about as tall as I. Of all the beauties, she is it!" said he. "He certainly is a nice looking youth. So gentlemanly in his ways. And so refined in his language," she was saying.

The friendship between Emila and Vance grew more intimate as the days passed by. Each visit helped to make their friendship more sincere, until finally Dan Cupid accompanied Vance on his visits. Apparently Dan Cupid knows how to do "his bit," exceptionally well. One Tuesday afternoon instead of Vance taking his trip to Emila's, she went to the city with him. The next morning when Emila came to work she wore a sparkling ring on her finger. Consequently Dan Cupid had not failed to "do his bit."

Early in October Vance expected to go "over there." One morning he called Emila on the phone. "Say, lassie, I leave tomorrow for a ten-day furlough before going 'over there.' I'm going home to see mother. Are you ready to go as my bride?" "Yes, I'll be ready," came the reply. The next morning Vance and Emila left to finish the work commenced by Dan Cupid. A happy couple were Private and Mrs. Vance Donnette, as they took the train for the South. At the train passed out of the station Vance whispered to Emila: "Aren't you glad that it was 'blown in by the draft' (draught)?"

HER TRIP TO IDAHO SPRINGS A FAILURE

Mrs. Richards Couldn't Walk for Two Years—Goes Anywhere She Wants to Since Tanlac Relieved Troubles

"I have actually spent three hundred dollars for medicines of different kinds. My druggist said I was the best customer he had—but nothing seemed to reach my case until I began using Tanlac," said Mrs. A. M. Richards, 803 13th street, Denver, Colorado.

"Three years ago," she continued, "I began suffering with rheumatism and stomach trouble. The rheumatism was inflammatory and, while it affected me all over, I suffered mostly in my hands and feet. Medicine failed to help me and I went to Idaho Springs for treatment but came back no better. For two years I couldn't walk—some days I couldn't use my arms at all—and when I went to the Springs I had to take a lady with me to help me along. My stomach was in a dreadful condition and was weak, nervous and dizzy.

"The results Tanlac has brought me have been nothing less than wonderful. Last winter I weighed just one hundred pounds and I am sure I weigh all of one hundred and twenty now—and, oh, I do feel so much better. I can walk all over town, go anywhere I want to, look after my house without any trouble and just feel fine. I am already practically relieved of pain—the dizziness is all gone and I am in better shape than I have been in three years."

Tanlac is sold in Ada by Gwin & Mays Drug Company.

DRAFT BOARD ADVISORS APPOINTED

Oklahoma City, Okla., Oct. 8.—(Special)—Eugene Ross of Muskogee has been appointed industrial advisor to the district draft board for the First Eastern District, J. B. Correll of Tulsa, for the Second Eastern District and C. E. Dobyns of Oklahoma City for the Western District. Their duties will consist principally of seeing that men who are necessary to industry at home and want to get into the army under the new draft will be kept at home. On the other hand, slackers claiming to be necessary men must be weeded out. These labor advisors will be present at meeting of District Draft Boards and will act in an advisory capacity, but will not vote. They will keep in touch with employers with whom they will take up deferred classification problems. Employers of necessary men should lay their problems before them in order that proper classification of registered men may be had, and evidence furnished in support of claims for deferred classification.

The following agricultural advisors have also been appointed: George Bishop, District Exemption Board at Oklahoma City, Cyrus Avery at Tulsa and J. L. Shinebarger at Muskogee.

The three District Boards adopted the following resolution: "Moved and seconded that county agents be instructed to investigate cases of farmers who have not made claim for deferred classification and to ask exception for those whose production of essential crops and livestock seems to justify it; and that where possible, he furnish supplementary evidence in support of claims for deferred classification made by farmers who in the interest of food production should be kept on the farm."

STRENGTHENS KIDNEYS—PURIFIES BLOOD

You can't expect weak kidneys to keep up under the terrific strain of nature's effort to filter the acids and poisons out of the system unless they are given a little help. Don't allow your kidneys, the most over-worked organs of your body, to become diseased when a little attention now will prevent it. Don't try to cheat nature. It can't be done.

As soon as you commence to have backache, feel nervous, tired or worn out without cause GET BUSY. These are usually warnings that your kidneys are not working properly and throwing off the poisons as they should. Do not delay a minute. Go after the cause of your ailments or you may find yourself in the grip of an incurable disease. GOLD MEDAL Haarlem Oil Capsules will give almost immediate relief from kidney troubles, which may be the unsuspected cause of ill health. GOLD MEDAL Haarlem Oil Capsules will do the work. They are the pure original Haarlem Oil Capsules imported direct from the laboratories in Haarlem, Holland. Ask your druggist for GOLD MEDAL and accept no substitutes. Look for the name GOLD MEDAL on every box. Three sizes, sealed packages. Money refunded if they do not help you.

HER OWN SISTER DIDN'T RECOGNIZE HER, SHE DECLARES

Mrs. J. D. Morrison Now Well and Happy After an Illness of Three Years' Standing, Praises Tanlac.

"I improved so much after taking this Tanlac that my own sister didn't know me at first, when I went to visit her," said Mrs. J. D. Morrison of 314 Twenty-fifth street, Enid, Okla. "I lost my health three years ago and had stomach trouble of the worst kind," she continued. "I also suffered dreadfully from biliousness and constipation. I was feverish and restless most of the time and never knew what it was to get a good night's rest. I was almost a nervous wreck. I tried dieting and living on liquid foods until I was almost starved, but nothing did me any good. "I started taking Tanlac and by the time I had finished my second bottle, my appetite had increased until I was able to eat just anything I wanted. I had gained thirty-three pounds in weight—had gone up from sixty-six to ninety-nine pounds in weight—and was feeling better than in a long time. I am now doing all my house work and even some of the washing. I feel that I owe my life to Tanlac. Tanlac is sold in Ada by Gwin & Mays Drug Co.

Y. M. C. A. WORKERS DISPLAY HEROISM

(By the Associated Press)
With the French Armies, Sept. 6.—American Y. M. C. A. workers attached to the Moroccan division of the French army distinguished themselves by their heroism during the recent offensive on the Marne salient. They took an active part in relieving the wounded of the division, under constant shell, rifle and machine gun fire and many had miraculous escapes. They carried water, cigarettes and food to the fighting men and acted as interpreters, many of the men of the division being of different nationalities. Among those mentioned for displaying extraordinary heroism under fire were R. H. Bacon, New York City; Frank Hamilton, Buffalo; S. H. Busby, Iowa City; Ray Coyle, Berkeley, Calif.; and William Murray, Brooklyn, N. Y.

THOUGHT ONE CLEAN SHIRT ALL HE NEEDED

"Ten years ago I was reduced to a mere shadow. I was yellow as a gold piece and would often be doubled up with most excruciating pains in my stomach. Physicians could only relieve me with morphine. I was advised to try May's Wonderful Remedy and it helped me at once. What is more, I have been well ever since. A friend said he thought one more clean shirt all I would ever wear." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co. and Druggists everywhere.

The bravest battle. The bravest battle that ever was fought! Shall I tell you where and when? On the maps of the world you will find it not.

'Twas fought by the mothers of men.

Nay, not with cannon or battle shot, With a sword or noble pen; Nay, not with eloquent words or thought

From mouths of wonderful men! Oh, ye with banners and battle shot, And soldiers to shout and praise! I tell you the kindest victories fought

Were fought in those silent ways. O spotless woman in a world of shame With splendid and silent scorn, Go back to God as white as you came—

The kindest warrior born! But deep in a walled-up woman's heart— Of a woman that would not yield, But bravely, silently bore their part— So, there is that battle-field! No marshaling troops, no bivouac song,

No banner to gleam and wave; But oh, these battles, they last so long— From babyhood to the grave.

—JOAQUIN MILLER.

For This Poor Mother Who Could "Hardly Drag Around."

Glasgow, Ky.—"I am a farmer's wife and was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight." Mrs. S. M. Gray.

The reason Vinol proved such a wonderful strength creator in Mrs. Gray's case is because of the beef and cod liver peptones, iron and manganese peptones and glycerophosphates combined in a pure, native tonic wine, which makes Vinol the most successful tonic.—Gwin & Mays Drug Co., and Druggists everywhere.

WAR EXHIBITS AT STATE FAIR

DEPTH BOMBS, TORPEDOES, BATTLESHIP MODELS, CANNON AND MACHINE GUNS

2 SPECIAL BUILDINGS FILLED

Army and Navy and Five Other Government Departments Co-Operate in Making Feature Attraction at Oklahoma City Exposition

Oklahoma City.—"A depth bomb was dropped. In a few minutes bubbles and oil appeared on the surface. We are certain the submarine was destroyed."

How often have we read such statements in the daily papers? And yet few Americans have ever had the opportunity of seeing the "ash cans"—as our tars call depth bombs—with which the navy of Uncle Sam is sending the Hun sea pirates to the bottom of Davy Jones' locker!

An opportunity to inspect an "ash can" and to hear its workings described in detail by a man who has actually dropped them upon the Kaiser's U-boats will be afforded visitors to the Government exhibit buildings at the Oklahoma State Fair & Exposition next month.

These exhibits will be free to all, and are opened for inspection on Saturday, September 21, the first day of the State Fair. Throughout the remainder of the fair and until its close on September 28, they may be seen. In combination with the exhibits will be free government motion pictures which will show among other things the battle scenes taken in American trenches on the western front.

The army and navy department exhibits are naturally expected to attract great crowds, but combined with them and scarcely less interesting will be exhibits from the departments of agriculture, commerce, and the interior, as well as the United States Food Administration and committee on public information.

Included in the army exhibits are light type Browning machine guns, said to be the most deadly weapon ever invented; the aircraft type of Lewis machine gun; a 2.95-inch mountain gun; Springfield and Enfield rifles, the latter of which is now being used by American soldiers; trench periscopes; signal rockets; metal helmets, etc.

The navy exhibits include captured German rifles, naval mines; aero bombs; submarine winter clothing; projectiles of various kinds; models of battleships, cruisers, destroyers, etc., taken from the halls of the Navy department in Washington and never before exhibited, and numerous other pieces of naval equipment.

Four-minute men from various parts of Oklahoma will be on hand to deliver talks between showings of the government pictures, and to add representatives of the various government departments to explain their details to visitors.

All in all, the Government Exhibits building and its annex, containing in all nearly 14,000 square feet of floor space, are expected to be crowded to capacity during the entire eight days of the State Fair.

GOING THROUGH BARRAGE

Oklahomans have heard hundreds of times of "barrages." Few, however, save the heroic boys from this state who are battling Kaiserdom on the red fields of Europe, have ever seen a barrage or its effects. An exact duplicate of an artillery barrage is only one feature of the gigantic fireworks spectacle, "The World's War," which will be seen nightly at the Oklahoma State Fair & Exposition at Oklahoma City. The spectacle will be produced in front of the grandstand beginning September 22 and ending on September 28.

Hundreds of trained actors participate. They are correctly costumed in the uniforms of American and allied armies, and in the uniforms of German field gray. American troops charging through a curtain of fire put down by enemy artillery.

"The World's War" is produced under the supervision of men who have actually taken part in operations on the western front as members of the allied armies, but who have been released from service because of wounds. This insures faithfulness of detail.

Among the many interesting features of "The World's War" are scenes showing the storming of German trenches by American troops; the reception of the Yanks by the inhabitants of a French village, and similar incidents reflecting the daily lives of our boys in battle and battle line "over there."

Thousands of square feet of canvas are used to form settings for "The World's War;" scores of horses and other animals are used to give reality to the battle scenes, and machine guns, siege cannon, and other military apparatus is employed to make it even more lifelike.

Aside from an actual trip to the western front, which few Americans will ever be able to make except as soldiers, nothing can give one an idea of modern battle better than its modicum duplicate—"The World's War."

Flowers and Their Mission.

A great deal has been said and written about flowers being non-essential and superfluous since our entry into the world's war. Most of the articles are by writers who have never understood the full mission of flowers in our homes or hospitals, where our loved ones are lying sick or wounded. Great Britain and other countries have advocated the growing and use of flowers for such purposes, and we think the American flower lovers and growers are advocating these flower shows at this time in the belief that, with all the cruelty of war, something is needed to brighten life and make it more like

NEXT QUOTA TO CAMP CODY ABOUT OCT. 21

Oklahoma City, Oct. 8.—A call was received this morning by Major Kerr of the adjutant general's department from Provost Marshal General Crowder for the entrainment of 2,750 white men qualified for general military service during the five day period, beginning October 21. The men will be sent to Camp Cody, Deming, N. M.

Entrainment of 2,400 men for this camp which was to have started October 7 has been postponed on account of the "flu" epidemic in army camps and cantonments.

Call was also received for ten negro men, qualified only for limited service, to entrain on October 24, Charleston, S. C.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by Bart Smith.

Methodist Church Open.

An observer made mention of the fact that the First Methodist church has been open many nights during the summer, and we are glad for our church to be used for work or worship. This week there has been a meeting announced for five evenings and we hope we are moving toward a program that will require the church to be open for use seven evenings in the week. I desire to call the attention of our people to the need of Sunday meetings for instruction and inspiration. The absentee not only violates his vows, but he weakens the church and the pastor by his absence from the services. However, Sunday sermons and worship are not all of our holy religion. We are evolving a program of work for our church that will require the use of our church building twice or three times as much as Sunday and Wednesday services require.—Wallace M. Crutchfield, Pastor.

JORDAN VALLEY HAS VERY FEW ATTRACTIONS

(By the Associated Press)
Jerusalem, Oct. 8.—Allied soldiers in the valley of the Jordan know now how really unkind were persons who, in pre-war days, "wished them in Jericho." To these nightingales, Jericho and its dust-covered environs mean heat, flies, mosquitoes and snakes, mildly advertised by the Turks in this message set up opposite the British lines: "Don't fear an offensive from us; we will come over later when you are all dead."

This summer, day after day, army thermometers along the Jordan registered from 105 to 125. Yet with scarcely a breeze, and these dust-laden, the Australian and New Zealand horsemen holding these "line, bringing from a temperate climate a reserve of health and vigor lacking in the natives, withstood the ordeal. It is the second or third summer that tells.

The flies and mosquitoes of the valley know no pity. In the early days of the fighting, when it was impossible to take the necessary sanitary precautions, they bred in myriads, but now pools of stagnant water have been eliminated and large tracts of scrub burned. As a result, the number of malaria cases has been surprisingly low.

Of the minor evils, the snakes are the worst, but due to the precautions taken by officers and men, casualties from snake-bites have been comparatively insignificant, despite the number of the reptiles and their venomous species.

One captured Turk had been attacked and bitten by a serpent four feet long, and as he lay on his cot in a British hospital, he told how he had strangled the reptile and then fainted. His nerves were shattered by the incident, and medical officers said it would be years before they were again normal.

DAYLIGHT SAVING MAY BE CONTINUED

Washington, Oct. 8.—Indefinite continuation of the "daylight saving" time schedule is proposed in a bill today by Senator Calder of New York, with the endorsement of Chairman Baruch of the war industries board, who believes daylight saving should continue as a coal conservation measure. Under the present law timepieces will be turned back on October 27.

Sunrise in Town and Country.

Sunrise, on the mountains or at sea, or in the rural districts, is an event worthy of attention and well rewards the early riser with its beauty and significance—but the early riser in the town or city has usually found everything untidy and must step over ash cans and dodge the sweepers and be satisfied with the sleepy grunts of workmen who are getting things into shape for the business of the day. It is anything but picturesque and most unattractive.

MILITARY STRONGHOLD OF LAON SET AFIRE BY GERMANS
Paris, Oct. 8.—Laon, the stronghold to which the enemy has been slinging as the key point of his line on the southwest, apparently has been set afire by the Germans. The town was reported ablaze yesterday and fires were still burning there today.

Rheims has been finally and definitely cleared from the menace of German cannon. The Germans are in retreat on the whole front from the Suippe to the Arnes, as well as in the region south of Cambrai.

In the first named sector the allies have reached the Arnes river, on which the enemy hoped to make a stand. In the second region the British fourth army has crushed counterattacks which the enemy delivered in an effort to prevent its progress toward Bohain and cover their retreat to the south.

These two movements of retreat form a part of a plan which was to have brought the German armies to new lines of resistance much nearer the frontier, it appears, but the constant pressure of the allied troops is making the execution of the plan most difficult and hazardous.

SEVEN WAR WORK RELIEF AGENCIES JOIN IN DRIVE

Recognized Great Organizations Representing All Creeds and Elements Welded Into One.

\$170,500,000 IS THE GOAL

Plan of War Department to Avoid Waste of Energy and Duplication of Effort Enthusiastically Adopted and Unity is Achieved.

WHAT GENERAL PERSHING NEEDS

"Give me nine men who have a hut and I will have a more effective fighting force than if I had ten men without it."

—General Pershing.

On November 11 the American people will start a one week's drive to raise the largest amount of money ever given outright by any people in the history of the world.

The drive will be a new thing under the sun. For the first time Protestants, Catholics and Jews, forgetting all their differences, will line up shoulder to shoulder, welding their individual organizations together in their common devotion to the boys in the cantonnments and over there. This amalgamation of the seven great agencies engaged in war work is one of the fine developments which have been brought about by the war and under the wise guidance of President Wilson.

The seven organizations which together will make this united appeal are the Y. M. C. A., Y. W. C. A., National Catholic War Council and K. of C., the Jewish Welfare Board, the War Camp Community Service, the American Library Association and the Salvation Army. Each of them will need funds this fall; each had planned a separate campaign for support. Now, acting on the suggestion of the President's letter of September 5, the seven campaigns will be rolled into one. The American people will be spared the burden of seven separate appeals, and the nation will have an opportunity to demonstrate splendidly that men and women of all creeds at home can work together, as men of all creeds over there are fighting and dying together.

Dr. John R. Mott, whom President Wilson has spoken of as one of the ablest and most useful men of his generation, has been selected Director General of the drive. It is interesting to note that Dr. Mott's name was placed in nomination by John G. Agar of the National Catholic War Council and seconded by Mortimer L. Schiff of the Jewish Welfare Board. The general committee having the campaign in charge contains such well known names as Raymond B. Fosdick, Chairman of the Commission on Training Camp Activities; George W. Perkins, Chairman of the Finance Committee of the U. S. Steel Corporation; James F. Phelan of Hornblower and Weeks; Honorable Myron T. Herrick, former ambassador to France; Cleveland H. Dodge, George Gordon Battle, Mrs. Henry P. Davidson and Frank A. Vandenberg, president of the National City Bank.

In every city, county and town the campaign will be in charge of the biggest men of the community.

Together these seven organizations represent a work that is staggering in its proportions. They have more than 15,000 uniformed workers, standing shoulder to shoulder with the boys every step of the way from home to the front line trenches. They operate more than 3,600 buildings and ship 500 tons of supplies to the boys in France every week. Fifteen miles of film set sail for the other side each week under their direction, and the regular weekly attendance of soldiers and sailors at their motion picture shows is more than 2,500,000. The Bibles furnished to the boys since the war broke out would, if piled one on another, make a pile more than twenty miles high.

"Mornie," said Napoleon, "is as other factors in war as three to one." By which he meant that one man who is kept contented and happy is better than three men who are discouraged and homesick. It is the business of these seven great agencies to help maintain morale. They are keeping up the fine fighting edge of our boys, and by their ministrations, helping to put added power into our army and navy and so hasten the hour of victory when they will bring our boys home again.

It is predicted by national leaders that this great victory drive will "go over the top" in a larger way than any campaign that has preceded it.

ADA AVIATOR AIDS FLORIDA LIBERTY LOAN

Lieut. C. C. Chauncey, of Arcadia, arrived Monday night to look over the landing site here with a view of making a visit to Bartow on the opening day of the Liberty Loan drive, Saturday, Sept. 28th, at which time a tie game of push ball is to be played off between the two aviation camps.

A committee of citizens accompanied Lieut. Chauncey over the ground of Hill Crest Landing in Bartow. From here they will be sent to Frostproof and Lake Wales to look at sites there.

Several machines will visit whatever point is selected. It will be a great day for Bartow if Hill Crest is selected.

After returning Lieut. Chauncey reported his findings to his superior officers at Arcadia and yesterday our people were notified that we "were it." Mr. Jordan was deputized to erect a pole on the Hill Crest Landing site, for a weather wave streamer. See program and other articles in this paper telling about the big doings here Saturday in the way of ushering in Liberty Bond Day. Three big flyers will be here and probably a few smaller ones. Our people hope to see 10,000 or more people here that day.—Bartow (Fla.) Record.

The Methodists of the city are requested to meet to pray and study the teachings of the Bible Wednesday evening at 8 o'clock.
